P.O. Box 490  
Painesville, Ohio 44077-0490

Dear Mr. Long,

Enclosed are the Quarterly Self-Monitoring Reports for the Perry Nuclear Power Plant sanitary waste system for the months of December 1992, January and February 1993. All required samples were collected and analyzed in accordance with the self-monitoring program.

As we discussed on February 1, 1993 and addressed in our response to your Notice of Violation, both our self-monitoring results and your unscheduled monitoring results indicated a silver concentration above the allowable limit during the month of January. Note that the results from the February sample are below concentration limits. The results for pH are within regulatory guidelines. Additional sample analysis results are provided for your information.

Please contact Louise Barton at (216) 259-3737 extension 5512 if you have any questions.

Sincerely,

Robert A. Stratman
