Gentlemen:

DOCKETS 50-266 AND 50-301
FITNESS-FOR-DUTY (FFD) PROGRAM
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

In accordance with 10 CFR 26.71(d), we are providing herewith the Fitness-For-Duty Performance Data for the six-month period ending December 31, 1992. No events reportable under 10 CFR 26.73(a) occurred during this period. There was only one positive test.

We continued our quarterly program review meetings which involve key personnel responsible for administering the FFD Program. These individuals reviewed data, measures of program effectiveness, audit findings, and written procedures. Procedures were revised as necessary, based on these reviews. As an attachment to this letter, we are providing the standard form summarizing our FFD Program results for the past six months. This information indicates that the work force at our Point Beach Nuclear Plant continues to be virtually drug and alcohol-free.

If you have any questions or require additional information, please contact us.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Bob Link', is written over a light-colored background.
