Re: License Amendment
(transfer to Southern Nuclear)

MOTION FOR CONTINUANCE TO FILE BRIEF

On March 4, 1993, counsel to Georgia Power Company filed, via overnight delivery, an appeal and a motion to stay pending appeal of the February 18, 1993 Memorandum and Order of the Atomic Safety and Licensing Board. Pursuant to 10 C.F.R. §§ 2.710 and 2.714a, Petitioner's brief in response to GPC's appeal and request for a stay is due on March 16, 1993.

On the afternoon of March 5, 1993, the Nuclear Regulatory Commission ("Commission"), without prior notice served, via facsimile, an order in Texas Utilities Electric Co. (Comanche Peak Unit 2), Docket No. 50-446-CPA, requesting below-signed counsel to file, by close of business on March 12, 1993, a brief addressing questions raised in the Commission's order of March 5, 1993. As requested, on March 12, 1993 below-signed counsel filed a brief in response to the Commission's March 5, 1993 Order. Thereafter, a blizzard struck the Washington, D.C. area, prohibiting Petitioner's counsel from commencing legal research necessary to respond to GPC's appeal and motion to stay.

Due to the two above-stated intervening events, Petitioner's

counsel finds it necessary to seek a continuance, until March 20, 1993, to file a brief in response to GPC's appeal and requested stay.

WHEREFORE, Petitioner's counsel respectfully requests that he be allowed to file a brief in response to GPC's appeal and requested stay, by first class mail, postmarked by March 20, 1993.

Respectfully submitted,

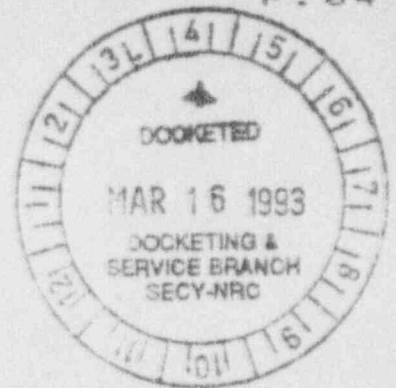

Michael D. Kohn
