ATTENTION: MR. R. W. BORCHARDT

SUBJECT: DRAFT AGENDA FOR APRIL 20, 1993 MEETING IN CASACCIA, ITALY
AND APRIL 22, 1993 MEETING IN PIACENZA, ITALY

Dear Mr. Borchardt:

The purpose of this letter is to confirm plans for the NRC staff to visit the Westinghouse AP600 test facilities at ENEA/Casaccia and SIET/Piacenza between April 20, 1993 and April 22, 1993.

We have reviewed the draft agenda and meeting times provided in a letter from Mr. A. E. Levin (NRR) to Mr. E. J. Piplica (W) dated January 14, 1993, and find these to be acceptable. The plans call for two meetings. On April 20, 1993, a one day meeting is planned at the ENEA test facility in Casaccia, Italy to review the Westinghouse AP600 Automatic Depressurization System test plans and tour the facility. A draft agenda for this meeting is provided as Attachment 1. On April 22, 1993, a one day meeting is planned at the SIET test facility in Piacenza, Italy to review the SPES-2 Integral Systems test plans and tour the facility. A draft agenda for this meeting is provided at Attachment 2. Attachment 3 provides some general information which should assist you in making travel plans.

In order to meet ENEA security requirement, it is necessary for Westinghouse to provide ENEA with information on all visitors to the facility. Attachment 4 identifies the required information. We would appreciate receiving this information for each meeting attendee by April 1, 1993.

Please contact Brian A. McIntyre on (412) 374-4334 if you have any questions concerning this transmittal.

N. J. Liparulo, Manager
Nuclear Safety & Regulatory Activities

Attachment 1

Draft Agenda for Meeting at ENEA
Automatic Depressurization System Test Facility
Casaccia, Italy

Tuesday, April 20, 1993

9:00 a.m. - 5:00 p.m.

REVIEW OF ADS TEST PROGRAM

Phase A Testing (sparger placement)

- Phase A Facility Design
- Completed Phase A Test Matrix
- Summary of Phase A Results

Phase B Testing (Stage 1, 2 and 3 ADS valve response and thermal hydraulics)

- Phase B Facility Modifications
- Proposed Phase B Test Matrix
- Planned Post-test Analysis
- Schedule for Completion of Phase B Testing and Test Reports submittal to NRC

TOUR OF ADS TEST FACILITY

Attachment 2

Draft Agenda for Meeting at SIET
SPES-2 Full-Pressure, Full-Height Integral Systems Test Facility
Piacenza, Italy

Thursday, April 22, 1993

9:00 a.m. - 5:00 p.m.

OVERVIEW OF SPES-2 FACILITY AND TEST PROGRAM

- SPES-2 Design and Scaling Criteria
- SPES-2 Instrumentation and Data Acquisition
- Planned SPES-2 Shakedown Testing and Results to Date
- Proposed SPES-2 Test Matrix
- Pretest Analyses and Comparison of SPES-2 to AP600 Behavior
- Schedule for Completion of SPES-2 Testing and Test Report Submittal

TOUR OF SPES-2 FACILITY

Attachment 3

Draft Itinerary

Monday, April 19, 1993

- Arrive in Rome, Italy (cab ride from Leonardo DaVinci / Fiumicino airport approximately 1 hour)
- Reservations at a hotel near the ENEA offices are recommended. The address of ENEA offices is: ENEA
Viale Regina Margherita, 125
00198 Rome, Italy

The hotel Albani is close the ENEA offices (fax number: 39-68-499-399).

Tuesday, April 20, 1993

- Travel by Bus from the ENEA offices to the ADS test facility in Cassacia. Bus leaves at 7:25 a.m. Travel time to Cassacia is approximately 50 minutes.
- All visitors should have their passports in their possession.
- Return to ENEA offices by Bus leaving Cassacia at 5:30 p.m.

Wednesday, April 21, 1993

- Travel by train from Rome to Piacenza (approximately 4 hours).
- Cabs are available at the Piacenza train station for travel to local hotels
- Piacenza Hotels:
 1. Hotel Roma
Phone: 39-523-23201
 2. Hotel Milano
Phone: 39-523-336843
Fax: 39-523-385101
 3. Hotel Nazionale
Phone: 39-523-754000
Fax: 39-523-456013
 4. Palace Hotel - Castel San Giovanni
(outside Piacenza)
Phone: 39-523-881641
Fax: 39-523-881643

Thursday, April 22, 1993

- Travel arrangements to and from SIET facility will be announced later.
- All visitors should have their passports in their possession.
