Dear Sir:

Subject: Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
TMI Site Emergency Review Group Review
of February 7, 1993 Intruder Incident

GPUN letter C311-93-2042 dated March 22, 1993 provided an overview of the actions taken by GPU Nuclear following the February 7, 1993 intruder incident. The TMI Site Emergency Review Group (SERG) was chartered by the President, GPU Nuclear to conduct an independent review of this event. Attached is a copy of the TMI SERG Report outlining the results of the review. The actions and recommendations contained therein are currently under review by GPU Nuclear and should not be misconstrued as representing a corporate position on these issues. A supplement to LER 93-S01, expected to be forwarded to the NRC in May 1993, will provide details of the actions to be taken as a result of the TMI SERG Report.

Sincerely,

P. R. Clark
President
