Physical Security Plan, Revision 47

Gentlemen:

As required by 10 CFR 50.54(p), enclosed are four copies of Revision 47 to the McGuire Nuclear Station Physical Security Plan that includes the consolidation of vital areas for purposes of personnel access, protection of alarm sensors and alarm transmission lines, security badge inventory frequency, annual security program audit report content and several miscellaneous changes. The enclosed Synopsis of Changes details the specific text changes. These changes do not decrease the effectiveness of the McGuire Nuclear Station Physical Security Plan.

Since Revision 47 details features of the McGuire Nuclear Station security system, I request Revision 47 be withheld from public disclosure pursuant to 10 CFR 73.21.

Very Truly Yours,

T. C. McMeekin
