SUBJECT: Quad Cities Station Operating Report
NRC Dockets (50-254 and 50-265)

Enclosed is an addendum to the Radioactive Effluent Report for July through December 1992, for Quad Cities Nuclear Power Station.

In the original report, Section C - "Particulates", the gross alpha was reported as <LLD based on the previous six months available data. The actual results for the period have now been received and show positive activity. The updated value is 1.17E-06 Ci for the Fourth Quarter 1992.

A copy of this report will be furnished to the NRC Resident Inspector.

Sincerely,
