Attention: Mr. James E. Richardson, Director  
Division of Engineering Technology

Subject: Catawba Unit 1 Steam Generator Tube Interim Plugging Criterion  
Mid-Cycle Outage Assessment

Dear Mr. Richardson:

Attached is a single copy of presentation materials entitled "Catawba Unit 1 Steam Generator Tube Interim Plugging Criterion Mid-Cycle Outage Assessment" (Proprietary), which will be used at the April 1, 1993 NRC meeting.

This presentation material contains information which is proprietary to Westinghouse Electric Corporation. Accordingly, we request that this information be withheld from public disclosure.

We will comply with the requirements of 10 CFR 2.790 to provide proprietary and non-proprietary versions of the above material together with an affidavit as soon as the proprietary and non-proprietary versions have been prepared. We will submit the total required number of copies of the proprietary and non-proprietary versions of the information and the required affidavit at that time.

In the meantime, we have provided sufficient copies for your information and use. M. P. Siemien, Esq. of the NRC Office of the General Counsel, has advised Westinghouse that she concurs with this procedure.

We expect to be able to fully comply with the requirements for the proprietary and non-proprietary versions of the information and an accompanying affidavit within four weeks.

Very truly yours,

Nicholas J. Liparulo, Manager  
Nuclear Safety and Regulatory Activities
