Docket No. 50-267

SUBJECT: Fort St. Vrain Level of Property Insurance

REFERENCE: NRC Letter, Erickson to Crawford, dated January 18, 1991
(G-91013)

Gentlemen:

In accordance with 10 CFR 50.54(w)(3), Public Service Company of Colorado (PSC) provides the following information regarding the sources and levels of nuclear property insurance that are in effect as of April 1, 1993, for the Fort St. Vrain Nuclear Station:

<u>Type of Insurance</u>	<u>Insurance Carrier</u>	<u>Insurance Amount</u>
Primary Property Damage and Excess Decontamination Insurance	American Nuclear Insurers (ANI)	\$281,000,000
Excess Property Damage Insurance	Nuclear Electric Insurance Limited (NEIL II)	\$1,000,000

Total Property Insurance Coverage: \$282,000,000

These levels of insurance reflect reductions from the nuclear property insurance levels identified in 10 CFR 50.54(w)(1). These reductions have been made pursuant to the property insurance exemption approved via the referenced letter, that allowed PSC to reduce its property insurance to a level of \$169,000,000. The insurance levels indicated above reflect a reduction to this approved level, as well as supplemental insurance purchased at PSC's discretion to protect balance-of-plant assets.
