BVPS Physical Security Plan (PSP)

Enclosed is Revision 17 to Issue 4 of the Beaver Valley Power Station Physical Security Plan (PSP). Revision 17 changes include:

1. Clarification of a conflict between our Base and Training & Qualification Plans in regard to minimum firearm caliber. The program remains in compliance with Title 10 and other national standards.
2. The site layout, revised to include temporary Unit 1 Ninth Refueling Outage Trailers.
3. Official "Unit 1" status identification for the enclosed bridge/walkway between the Unit 1 and Unit 2 Auxiliary Buildings.

These changes have been reviewed and judged not to constitute a degradation to the previous commitments in the PSP.

These changes, since they do not decrease the safeguards effectiveness of the Physical Security Plan, are being submitted in accordance with 10 CFR 50.54(p).
