Mr. Larry Hall  
Senior Manager Automation  
Sales & Services  
Voith US, Inc.  
2200 N. Roemer Road  
Appleton, WI 54911

SUBJECT: VOITH US, INCORPORATED AMENDED SEALED SOURCE AND DEVICE  
REGISTRATION CERTIFICATE NR-1231-D-101-B

Dear Mr. Hall:

This is in response to the Voith US, Inc. (Voith) letter received by the U.S. Nuclear Regulatory Commission on November 13, 2019, requesting an amendment to Sealed Source and Device Registration Certificate NR-1231-D-101-B to update the distributor name to Voith US Inc. In addition, staff identified that language that should have been included in the Safety Analysis Summary section of the certificate had not been included when the registration certificate was initially drafted, this language has been added as part of your amendment request. We have completed our review of your request, and a copy of the amended registration NR-1231-D-101-B is enclosed.

Please be advised that you must manufacture and distribute any registered product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificates. A registration certificate is meant to indicate that your product is acceptable for licensing purposes but does not authorize distribution or possession of radioactive material. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing if you decide to no longer manufacture, distribute, or offer service support for the product.

L. Hall
