Docket No. 52-002

Attn: Document Control Desk
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: System 80+™ Revised Technical Specification Bases

Dear Sirs:

This letter transmits a revised set of bases for the System 80+ Technical Specifications. Originally it was agreed that these revisions would be submitted after NRC staff reviewed the actual Technical Specifications, but this schedule was advanced after recent discussions with the staff. These revisions will be included in CESSAR-DC, Amendment 0, which will be printed in May, 1993.

If you have any questions, please call me or Mr. Stan Ritterbusch at (203) 285-5206.

Very truly yours,

COMBUSTION ENGINEERING, INC.
