SUBJECT: Calvert Cliffs Nuclear Power Plant  
Unit Nos. 1 & 2; Docket Nos. 50-317 & 50-318  
Semi-Annual Effluent Release Report

---

Gentlemen:

Enclosed is an amendment for the Semi-Annual Radioactive Effluent Release Report for the second half of 1991. This amendment is designed to correct data inaccuracies which were found during a recent review of that report. All revised values fall within the originally reported estimated error, with the exception of Item B1, Table IA, "Total Iodine-131." The corrected value for this item falls outside the original error range but is lower than originally reported.

In order to update your records, complete the following steps.

1. Obtain, from your files, the Semi-Annual Radioactive Effluent Release Report for the second half of 1991.
2. Replace pages 9, 10, 11, 12, 13, 14, 15, 16, and 18 with the attached pages.

We apologize for any inconvenience, and should you have any further questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,

CHC/RLC/WDM/bjd
