Subject: Core Operating Limits Report
Cooper Nuclear Station
NRC Docket No. 50-298, DPR-46

Gentlemen:

In accordance with Specification 6.5.1.G of the Cooper Nuclear Station (CNS) Technical Specifications, the Nebraska Public Power District hereby, submits a revision to the CNS Core Operating Limits Report (COLR). This specification requires that all changes in cycle specific parameters be documented in the COLR and be submitted to the NRC with the new parameter limits. Attached is a revision to the CNS COLR listing the cycle specific parameters for Cycle 16 operations for CNS.

In accordance with 10 CFR 50.4(b) (1), we are enclosing one original of the revised COLR for your use, and are transmitting one copy to the Regional Office, and one copy to the NRC Resident Inspector for CNS.

Should you have any questions or comments regarding the revised COLR pages, please contact my office.

Sincerely,

G. R. Horn
