Dear Dr. Murley:

In April 1992, we completed a rewrite to the Duane Arnold Energy Center (DAEC) Security Plan. That rewrite was submitted pursuant to 10 CFR 50.54(p) by Reference 1. In Reference 2, your staff provided comments on that Security Plan revision. In response to those comments, we have made further revisions to the DAEC Security Plan.

In December, 1992 we developed an Addendum to the Security Plan to describe special security measures to be implemented during the Security Systems upgrade transition. That Addendum was incorporated into the Security Plan by SPC-29, submitted pursuant to 10 CFR 50.54(p) by Reference 3. In that Addendum, we stated that we would continue to review the security measures discussed throughout implementation. As a result of this ongoing review, we have also made changes to that Addendum.

The aforementioned Security Plan changes are described in Attachment 1 and the evaluation of these changes, with respect to 10 CFR 50.54(p), is presented in Attachment 2. These changes were discussed with members of your staff on April 5, 1993 in the NRC Region III office. The purpose of that meeting was to review the NRC comments on SPC-28 (Reference 2) and our proposed

resolutions of those comments. Attachments 3 and 4 are the Security Plan and Addendum, respectively.

These changes have been reviewed in accordance with the requirements of 10 CFR 50.54(p). We have concluded that these changes do not decrease the effectiveness of the Security Plan. A copy of our evaluation is attached.

The Attachments to this letter contain information of the type described in 10 CFR 73.2; therefore, they should be withheld from public disclosure.

Sincerely,

John F. Franz
