Reference: Docket No. 50-285

Gentlemen:

SUBJECT: Application for Amendment of Operating License

Enclosed please find Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which seeks to amend the Fort Calhoun Station Unit No. 1 Technical Specifications. The requested changes will revise the permissible bypass for the Steam Generator Low pressure Signal.

Attachment A contains a markup reflecting the requested changes of the Technical Specifications. Attachment B provides the "Discussion, Justification and No Significant Hazards Consideration." OPPD respectfully requests that these proposed changes be approved by November 1, 1993, in order to utilize the changes prior to startup from the 1993 refueling outage.

If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.

Sincerely,

*W. G. Gates*  
W. G. Gates  
Vice President
