Re Docket #50-289

TMI Unit 1 Restart

Dear Commissioner Ahearne &amp; Friends:

If you follow the advice of  
Metropolitan Edison & open Unit 1  
before the people have had their  
voice you will be creating a serious  
hazard. I speak not of the obvious  
physical & psychological harm but  
of the anger of the people. I should  
of due process breeds revolution.  
I sincerely hope that you will be  
responsible for no such disaster  
now or ever.

Sincerely, Terry Roth
