Hon. John Ahearne, Chairman
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Mr. Ahearne: 12/17/80
I oppose the re-opening of TMI-I
due to its proximity to the semi-stable
Unit II & shared storage pool.
Your actions show only token regard
for the citizens of this area as the re-
cent dismissal of psychological factors exemplify.
Sincerely,
Michael Klinger
