Mr. John L. A. Hearne  
Chairman  
U.S. Nuclear Regulatory Commission  
1717 H. Street N.W.  
Washington, D.C. 20555

Dear Chairman:

I am writing as a resident, to express my views on returning Unit 1 at  
Three Mile Island Nuclear Station to operation.

My electric bills have been steadily increasing due to the fuel adjustments  
clause, while an undamaged Unit 1 sits idle. This unit is capable of  
supplying power at lower cost to citizens and reducing dependence on foreign  
oil. Unit #1 has top performance records during its five years of operation  
therefore I see no reason it should not be restarted.

Thank you for your time and consideration.

Yours truly  
Nancy H. Delvinger
