Dear Mr. James F. Ahearn, Chmn.,  
US Nuclear Reg. Comm. -

I believe Three Mile Island Unit 1, should be  
activated.

If we do not use nuclear power to manufacture  
electricity we are giving Foreign Powers time to  
surpass us in many ways. And we may wake up too  
late to ever catch up, and be only a second-rate  
Nation.

Yours truly,

Norman F. Ost
