

DOCKET NO.  
PROD. & UTIL. VAS. 50-289

Mr. Arnold E. Magner  
507 Pontiac Street  
Bay City, Michigan

James F. Ahern, Chairman  
U.S. Nuclear Regulatory Commission  
1717 H Street, N.W.  
Washington, D.C. 20555

7/25/81

Re: [illegible]  
To assist in the review of the proposed  
regulatory increases in fuel, I am hoping  
that this prospect will encourage the  
Nuclear Regulatory Commission to make a  
decision on T-10-I.

On the basis of information received, it  
seems that the Commission has been asked to  
make a decision on the proposed increases.  
I am sure it is important. This is  
different from T-10-I. T-10-I has been  
modified. You have already asked  
for a decision. T-10-I is now  
a matter of time.

Americans should not be penalized  
any further in the struggle to get  
T.M.I. into action and to reduce  
energy costs. We are aware that  
Europeans have moved far ahead  
of us. I hope you will be able  
to have influence to make progress  
on T.M.I.

Sincerely yours.

Mrs. Arnold F. Wagner
