

DOCKET NUMBER 50-289  
PROD. & UTIL. FAC.

James F. Ahearne  
Chairman  
U.S. Nuclear Regulatory Commission  
1717 H. Street N.W.  
Washington DC 20555

Dear Mr Ahearne:

01/28/81

I feel that the NRC has  
delayed too long to decide the  
fate of TMI-1 and that it  
should be allowed to restart  
without further delay.
