re: Docket 50-289 SA
TMI - Unit 1,
Middletown, Pa.

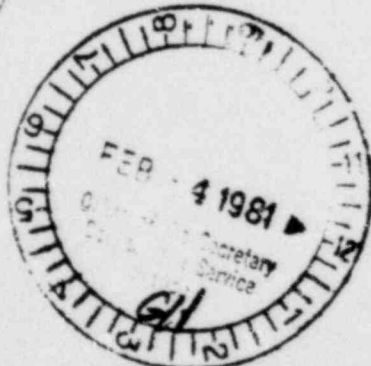

Sir:

Shock and dismay
have been expressed here over
the continued delay in restarting
nuclear plants in many areas
— of which a prime example is
the subject unit 1.

Similar plants are
operating safely while being
modified — and related losses
to the national economy are both
unnecessary and avoidable.

Please act!

Albert P. Slocum
