

DOCKET NUMBER **50-289**
PROD. & UTIL. FAC.

1716 Frankfort
Winfield, KS.
67156
Feb. 5, 1981

Mr. James Ahearn
Washington, D.C.

Dear Sir:

I believe nuclear plants are safer
now since the accident at Three Mile
Island. I know that TMI Unit I was
not involved or damaged in the accident
since similar nuclear plants are
operating while being modified. I think
this is unfair and costing the company
+ customers ^{about} \$500,000 daily to use coal + oil.
all waste of this kind must stop.
Margaret C. Wright
