

DOCKET NUMBER 50-289  
PROD. & UTIL. FAC.

2/10/81

Mr. James F. Kearne  
Chairman U.S. Nuclear  
Regulatory Commission  
Sir:

In Regard to Docket  
50-289 S.P. T.M.I. 1 Middletown,  
Pa.

I deplore the lack of decision  
on the part of the U.S. nuclear  
Regulatory commission, in not  
getting T.M.I No 1 back in operation  
much much sooner, Did you know  
how much money is tied up in  
that facility ~~that~~ by Metropolitan  
Edison & the Stock Holders of  
T.P.U., I was forced to sell my  
stock in T.P.U & Take

8102170323  
H

DS03  
5/10

~~the~~ my loss, <sup>2</sup> that's when they  
cut the Dividend from \$1.00 to \$0.00.  
I bought back in, & then when  
the Dividend was eliminated,  
I was forced to sell again, taking  
another loss which almost wiped  
out my entire capital investment.  
Can you envision how much the  
U.S. Treasury lost in revenue  
if all the stock holders took the  
same action as I did. Also  
I am a disabled heart patient  
unable to work, & I need <sup>be</sup>  
those dividends I was receiving  
from T.P.O. to supplement  
my Pension & Social Security. &  
Also what is costing the  
customers of Metropolitan Edison  
\$50,000.00 daily for maintenance

electricity<sup>32</sup> which you people  
don't seem to give a damn.  
Instead of working for the  
People who pay your salary's  
you are working against  
those same Americans &  
in closing, from now on  
I wish you could work for  
the People & cheaper energy  
for all

Sincerely

Clarence G. Burns
