

DOCKET NUMBER 50-289
PROD. & UTIL. SEC.

Monday
Feb 15 1981

Dr. John C. Shearn
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Shearn

Regarding the Three Mile
Island accident - our school is
beginning currently - I
understand that Metropolitan Edison
is moving toward restoring Unit 1,
the turn of the damaged reactor
Unit 2 - so back now they say
will take 9 or 10 months
clean up!

Unit 1 should not be
restored!

Sincerely

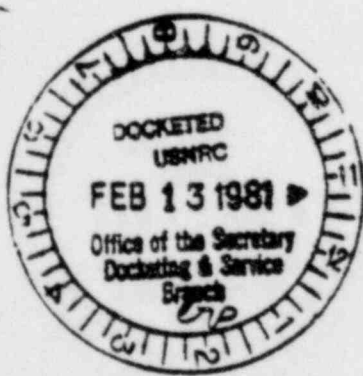

Conrad Stewart
