

DOCKET NUMBER  
PROD. & UTIL. FAC. 50-289 (Restart)

2/10/81

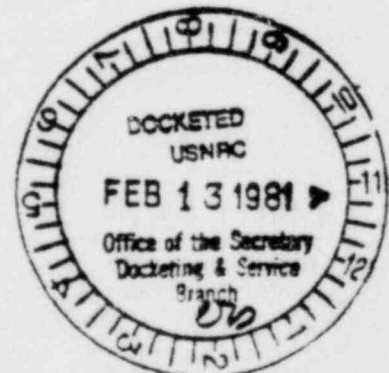

Dear Mr. Ahearne:

I strongly object to the restarting of Unit 1 at Three Mile Island. None of the problems at Unit 2 has been solved and that "Pandora's Box" hasn't even been opened yet and who knows the law suits that will result from that.

I understand that you are being sued by the owners of Three Mile Island Unit 2 for not informing them of the problems that their reactor had. The people in this area should not be exposed to any more risk!

Sincerely,

*Maxine King*
