Mr. John Ahearne, Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Ahearne:

We urge you not to restart Unit 1 at Three Mile Island. We understand that the President of General Public Utilities has requested that the NRC allow the plant to restart before the hearings are complete. Yet, we understand that a notice and hearing are required by statute.

We also urge you to fight to prevent the dumping of radioactive water into the Susquehanna River which is the source of drinking water for many people.

Sincerely yours,
Mary E. Turner
and Peter Turner, DDS.
