

REF: DOCKET 50-289SP  
TMI UNIT 1 MIDDLETOWN, PA.

Paul M. Camiener

27415 Greenfield - Apt. 1

Southfield, Mich. 48076

JAMES F. AHEARNE, CHAIRMAN  
U.S. NUCLEAR REGULATORY COMMISSION  
1717 H. ST. N.W.  
WASHINGTON, D.C. 20555

MY WIFE & I ARE SENIOR CITIZENS. WE ARE NOT GAMBLERS OR SPECULATORS. A FEW YEARS AGO WE INVESTED A PORTION OF OUR WEALTH IN G.P.U. STOCK. OUR BROKER ADVISED IT. HE SAID G.P.U. IS A GOOD UTILITY, A SAFE INVESTMENT, AND WILL ALWAYS PAY A DIVIDEND, WHICH WE NEED FOR DAILY LIVING PURPOSES.

T.M.I. UNIT 1 WAS NOT INVOLVED OR DAMAGED IN THE ACCIDENT AT T.M.I. UNIT 2 IN MARCH 1979.

T.M.I. UNIT 1 NEEDS TO BE AND SHOULD BE RESTARTED WITHOUT FURTHER DELAY. SIMILAR NUCLEAR PLANTS ELSEWHERE ARE OPERATING WHILE BEING MODIFIED. REPEAT-T.M.I. UNIT 1 WAS NOT DAMAGED

TMI UNIT 1 HAS BEEN MODIFIED

THE NRC HAS ALREADY WAITED TOO LONG TO DECIDE TO START TMI UNIT 1. OUR COUNTRY DESPERATELY NEEDS ALL THE ENERGY WE CAN GET

ELECTRICITY AND AUTOMOBILES CAN KILL, BUT ARE SAFE WHEN HANDLED CORRECTLY.

NUCLEAR POWER IS SAFE, INEXPENSIVE, AND, AS JUST STATED, IS DESPERATELY NEEDED.

PLEASE GIVE THIS MATTER YOUR IMMEDIATE ATTENTION.

Sincerely  
Paul M. Camiener
