The Honorable John J. Dingell, Chairman
U. S. Nuclear Regulatory Commission
Washington, D. C. 20543

Dear Sir:

We are writing to solicit your enthusiastic support for the
election of the President of the U.S., who will express our own support.

We are well aware of the serious energy situation which now
exists in our country and we feel that, in spite of all the
difficulties, we must make the best possible choice
for the future of our country.

We are, of course, in a difficult position with the present
situation. We are in a position where we must choose the
best possible candidate for the President of the U.S. who
will be able to lead our country in the future. We are, of
course, in a position where we must choose the best possible
candidate for the President of the U.S. who will be able to
lead our country in the future.

We trust that your commission will do its utmost to untangle
the red tape that is holding up the election of the U.S. and will
use its considerable influence to encourage legislation that
will aid the safe growth of nuclear power.

Thank you for your consideration and support.

Very truly yours,

Robert J. Maine, A.S.U.I.
