

10 February 1981

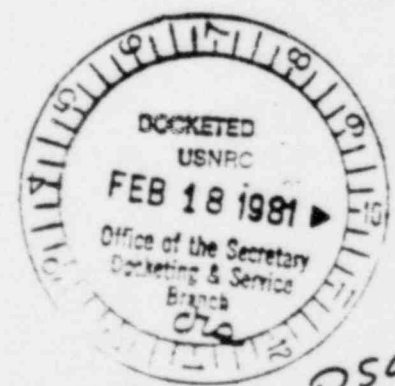

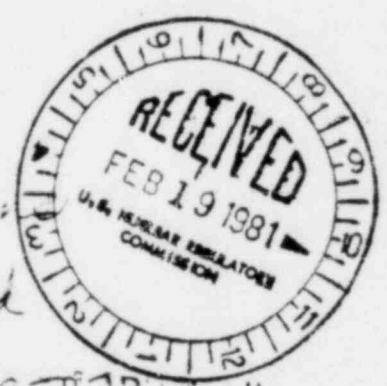

Mr. John Ahearn, Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Ahearn:

I am most concerned about the
3 Mile Island accident. As clean up of the
damaged Unit 2 still remains, I feel its
twin, Unit 1, should not be allowed to restart.
I am still concerned about the safety of the
3 Mile Island type of units.

Sincerely,

Mrs. Janet Bria
