

Re: Docket 50-289 SP-TM1-1.

Feb. 14th. 1981

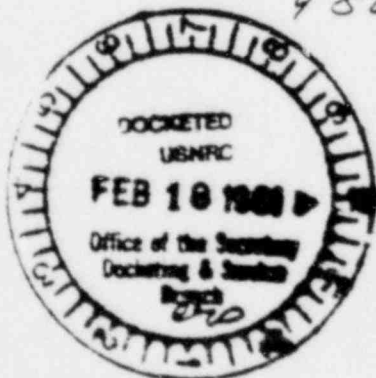

James H. Shearman.

Dear Sir:

In regards to TM1-1  
I think it's very important to re-  
activate it since it has been mod-  
ified and no connection to TM1-2  
if something is not done soon.  
The Met-Ed will be thrown into  
bankruptcy, and we stockholders  
will be left holding the bag, which  
most of us cannot afford.  
The decision is long past due.

Very Truly Yours.
