The Honorable John F. Chasney, Chairman
The U.S. Nuclear Regulatory Commission
Washington, D.C. 20535

DOCKET NUMBER
PROD. & UTIL. FAC... 50-289

Dear Chairman Chasney:

At a time in our Country's history when low cost energy is so important in the control of inflation and the reduction of dependence on foreign sources, I believe that the Three Mile Island power plant should be put back into operation just as soon as possible.

Some of our fellow Americans, through ignorance, oppose this action. This, I feel, is a temporary stance not based on fact. I encourage you to lend your full support to the restart of Unit No. 1 and to the resumption and use of Unit No. 2.

Very truly yours,
Albert T. Lagemann
