DOCKET NUMBER
PROD. & UTIL. FAC... **50-289**

Dec 29, 1980

Mr John F. Ahrens
Chairman, US NRC
1717 H St NW
Washington DC 20545

Re: Docket 50-289SP
TMI - 1

Dear Mr Ahrens,

With everyone running around trying
to conserve energy and come up with new
sources, it makes no sense at all to keep
TMI Unit No 1 shut down because of the
TMI Unit No 2 accident. I strongly recommend
that it be started up immediately.

Very truly yours
Warren J. Heiman
