

Route 2, Box 510A  
Dexter, NC 28037  
February 8, 1981

Mr. A. S. Rosenthal, Chairman  
Atomic Safety and Licensing Board  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Sir:

As a resident on Lake Norman, I respectfully request that the NRC pursue the licensing of the McGuire Nuclear Station without further delay. We have had many hearings; Lake Norman has built the plant according to regulations; McGuire's neighbors have toured the plant and participated in evacuation exercises. The rate payers in this area need the less expensive power produced by this plant.

Very truly yours,

Betty H. Walker
