RECEIVED

Dear Chairman Smith:

I am totally opposed to the opening of TMI I. Evacuation planning in our County is in its initial stages at best — as you know, an opinion. FEMA concurs in your own rules state a plan has to be implementable by April. As the state planning is going (essentially unchanged from 3/79) the area around

TM1 couldn't be  
for years, if ever.  
regulatory review  
public, just has  
nuclear plants we  
populated an area  
shut down.

The NRC, as the  
independent  
for was the voluntary  
request that certain  
be placed in  
be met

Sincerely,

D869  
S-10
