Mr Sheldon Wolfe =  
This is to tell you I sincerely hope  
& Pray they use Coal or Wind or  
Water - anything but atomic energy  
the sun is best of all. God gives  
it to us free - & there is no one who  
wants it in Washington as I'm told  
there is not any way for graft.  
but I'm 75 yrs old - retired nurse  
& won't be around so long but  
I hate to see this country go  
up in flames - as it only takes one  
time to do it, now God has it  
in mind to end this world in fire.  
I live near Houston & like they  
are planning to put one in like  
Clinton Illinois my home state of  
Illinois that's full of them. where  
will all the waste go? it will take  
a million yrs to destroy - why not  
use Solar or Coal? Your grand kids  
Grand kids will sure live in hell  
if they keep on till our children  
will not have a rock to hide under.
