

DOCKET NUMBER 50-289 (Resub)  
PROD. & UTIL. FAC.

Dear Sir:

2-23-81

The people of this area have had  
enough stress and anxiety in the last  
two years due to the nuclear waste  
accident, please don't cause any more  
by approving the opening of Unit 1.  
Due to all the <sup>known</sup> radioactive waste  
there and the potential danger that will  
exist, I feel re-opening Unit 1 would be  
a terrible mistake. Please consider this when  
decisions are to be made. <sup>W. L. Depue</sup>
