Dear Mr. Smith

As a customer of Westinghouse I do  
 urge you to use your influence  
 for the restart of L. B. (L. B.)  
 Such a waste of man power  
 and equipment is unbelievable  
 in this day and age.

Our utility bills are  
 much too high. Figures indicate  
 my bill would be 15% less  
 if the plant was in operation.

This company has had  
 an excellent record in the  
 past and for sure they will  
 in the future with an  
 opportunity to prove it.

Sincerely

William J. Vogel Jr.
