

ALLEN W. STEFFY

March 3, 1981

Mr Ivan W. Smith Chairman
Atomic Safety & Licensing Board
25 N. Court Street
Harrisburg, PA 17101

Sir:

I find it unconscionable that by reason of media inspired hysteria and nuclear regulator body failures the customers of land-Ed are burdened with deteriorating service and high rates.

Either reimburse us for the power you prohibit land-Ed from generating or put TAT-1 back in service.

Allen W. Steffy
