Dear Mr. Smith,

I hope that TMI that I be allowed to restart and to continue operation.

The operation of this unit will reduce the electric bills of nearly 900000 Customers of MTEd and Penn Elec. Thus the present and future economy of a large part of Pennsylvania will be improved.

I feel thousands persons who have been upset by such news accounts and influenced by agitators (many from outside the area) should not be permitted to prevent the use of a good and valuable station.

That I have operated well and safely in the past several years and can be expected to do so in the future with the present GPC-MTEd staff under the guidance of NRC.

Sincerely,

*Frederic Cox*
