Mr. John Ahearn, Chairman  
U.S. Nuclear Regulatory Commission  
Washington, D.C., 20555

Dear Sir:

I urge that you not  
allow Unit 1 of the Three  
Mile Island plant to be  
restarted. I need not remind  
you of the testimony by many  
experts who oppose the  
restart.

The health and wellbeing  
of many human beings  
deserves serious consideration.  
Heavy responsibility rests  
upon you and the rest  
of your commission.

Sincerely,  
Robert A. Bonker
