

Mr. John Aheane, Chairman  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Mr. Aheane

I urge you not to start  
Unit 1 of Three Mile Island.  
The owners and operators have  
shown themselves to be highly  
irresponsible in their operation  
of the plant and continue to  
be so now.

Public hearings are often  
bypassed and they do what  
they wish, endangering the  
lives of the people who live  
around Three Mile Island.

You, too, must act with  
full responsibility.

Sincerely,  
Madeleine Berke, M.S.W., L.C.S.W.
