addition to Reporting  
Unit #1

Dear Mr. Smith,

I have just read a  
Book entitled, Voices From TMI.  
I know of no better testimony  
for not reopening Unit #1.  
INFANTS are no longer dying  
from low & high level radiation  
emissions; the birds are re-  
turning and other animals  
are recovering. People who  
were less traumatized. The  
area does not need power  
for electricity. I urge you not  
to reopen Unit #1. Sincerely,
