RECEIVED

Dear Mr. Smith:

In view of the information reported on  
TMI Unit #1, I urge that you and your Board  
not re-open it. To do so would be to  
disregard authoritative assessments of the  
unit's safety and to further jeopardize the  
physical and mental health of persons  
living in the area.

A responsible course of action is to  
keep the unit closed.

Yours truly,

Robert McKinney
