Subject: Request for Additional Information, NRC License no. 24-32613-01, Antoine M. Adem, M.D.
Attachments: Model Delegation of Authority to RSO.pdf

Good morning Ms. Adem,

I have reviewed the licensee's request dated 11/26/19 to name Dr. Khaja as the Radiation Safety Officer and to name Dr. Bouhasin as the Authorized User for 10 CFR 35.200 material on NRC license no. 24-32613-01.

I need additional information in order to proceed with the requests. Please provide the following:

- 1) Please provide a Delegation of Authority Letter signed by Dr. Adem and Dr. Khaja (see the attached format).
- 2) Please provide a copy of Dr. Bouhasin's medical license and a copy of Dr. Bouhasin's Board Certification.
- 3) Please revise page 3 of application documenting Dr. Bouhasin's training and experience to mark the applicable experience in using procedures to contain spilled byproduct material and administering dosages and provide additional hours of experience in eluting generator systems, if required (if Dr. Bouhasin is not board certified.)

Please provide the requested information in a cover letter signed (by management) and dated by 1/27/2020. You may submit the information directly to me via email.

Please let me know if you have any questions.

Sincerely,

Magdalena R. Gryglak

Model Delegation of Authority to Radiation Safety Officer

Memo To: Name of Radiation Safety Officer
From: Name of Chief Executive Officer/Senior Management
Subject: Delegation of Authority

You, _____, have been appointed the Radiation Safety Officer for our U.S. NRC license no. XXXXX and you are responsible for ensuring the safe and secure use of radiation and radioactive material. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the U.S. Nuclear Regulatory Commission at any time.
