Re: Consolidated Edison Company
of New York, Inc.
Indian Point Station, Unit No. 3
Docket No. 50-286

Dear Mr. O'Leary:

With this letter we transmit three (3) originals and twenty-five (25) copies of Amendment No. 24 to the Application for Licenses in the above-captioned proceeding. Also transmitted is Supplement No. 1C to the Final Facility Description and Safety Analysis Report, which is in two parts. The first part consists of seventy (70) copies of revised pages and supplementary information to be added to the Report. This material addresses approximately two-thirds of the questions in Mr. D. B. Vassallo's letter of November 6, 1972. The remaining responses will be submitted as they are completed, with the last installment by February 9, 1973.

The second part is a separate document which contains material relating to Applicant's Industrial Security Plan for Indian Point Unit 3. Two (2) copies of this document are supplied.

As counsel for Applicant in this proceeding we hereby request that the second part of Supplement No. 10 entitled "Industrial Security," be withheld from public disclosure pursuant to 10 CFR Sections 2.790(d) and 9.5(a)(4), on the ground that it identifies Applicant's detailed security measures for the physical protection of the facility.
