**Subject:** [External\_Sender] RAI Response-Related GoldSim Sensitivity Case Files uploaded to BOX EFSS

Lee/Dave/Hans,

Just wanted to let you know I've uploaded all the files you requested to BOX EFSS in the following folders:

**RAI\_Response\_EMCF** - contains RPP-CALC-63407. This is the Environmental Model Calculation File (EMCF) that contains information about all the sensitivity cases used to support responses to RAIs.

**RAI\_Response\_GoldSim\_Files** - contains GoldSim files of the 5 sensitivity cases used to support responses to RAIs

**RAI\_Response\_GoldSim\_Supporting\_Files** - contains other files supporting the GoldSim system model calculations

Please contact Sunil if you have any questions about the EMCF or any of the GoldSim-related files

Marcel
