Dear Mr. Roberts:

Based on recent discussions with Energy Fuels Nuclear, Inc. (EFN), the U.S. Nuclear Regulatory Commission staff understands that EFN plans to submit a revised reclamation plan for the White Mesa Mill. Therefore, the NRC staff will not review the previously submitted White Mesa Reclamation Plan transmitted by your letter of June 30, 1988, and will close the case numbers previously opened for the Reclamation Plan review.

If you have any questions regarding this letter, please contact Ms. Charlotte Abrams of my staff at (301) 415-5808.
