

**Data Validation of the Sampling Event at the
Rifle, Colorado, Processing Sites
June 2019**

The U.S. Department of Energy (DOE) has completed the June 2019 sampling event at the Rifle, Colorado, Processing Sites. Samples from this event have been analyzed, and the results have been validated and are available for viewing through the Geospatial Environmental Mapping System (GEMS) at <https://gems.lm.doe.gov/#>.

Presentation, interpretation, and visualization of results will be documented in the upcoming *2019 Verification Monitoring Report for the Old and New Rifle, Colorado, Processing Sites*. You will receive additional correspondence when this report is available for distribution and viewing on the DOE Office of Legacy Management website at <https://energy.gov/lm>.

Please email PublicAffairs.review@lm.doe.gov if you have any questions.
